EXPERIENCE

Castle Square Tenants Organization

Square Roots Program Coordinator

March 2022 – March 2025

- Supported day-to-day program operations by preparing reports, proposals, and program documentation.
- Coordinated partnerships and communications with community-based organizations and external stakeholders to support program delivery.
- Collaborated with staff to develop curriculum, coordinate program activities, and facilitate classroom sessions for youth participants.
- Assisted Program Manager in organizing program schedules, tracking program activities, and ensuring compliance with EEC regulations.
- Provided operational support for program implementation by coordinating staff, participants, and classroom logistics.

Event Planner

January 2020 – March 2020

- Planned and coordinated youth performances for Black History Month and Lunar New Year community events.
 - Managed weekly schedules, staff coordination, and youth rehearsals to prepare for public performances.
 - Delegated program responsibilities to staff and youth participants to ensure successful event execution.
 - Led event-day logistics and coordination, guiding program staff and youth through activities and performances attended by 250+ community members.
-

EDUCATION

AWS Cloud Practitioner Certified

Codecademy — Front-End Engineer Career Path – Certificate

University of Massachusetts Boston Honors College Bachelor of Art in Computer Science

PROJECT EXPERIENCE — Personal Projects

Merchant Insight Dashboard (AI-Powered Sales Analytics)

- Built an AI-powered dashboard that analyzes small business sales data and generates actionable insights.
- Integrated OpenAI API to automate trend analysis and provide conversational insights for merchants.
- Designed interactive data visualizations using Chart.js and built the application using Next.js.
- Delivered a functional MVP in a 7-day sprint, demonstrating rapid prototyping and product development skills.

Calendar App

- Developed a full-featured calendar application supporting event creation, editing, and notifications.
 - Implemented global state management using Zustand to manage calendar navigation and application state.
 - Deployed a production-ready single-page application using Netlify.
-
